United Nations

Publications of the Development Law Service **related to water**

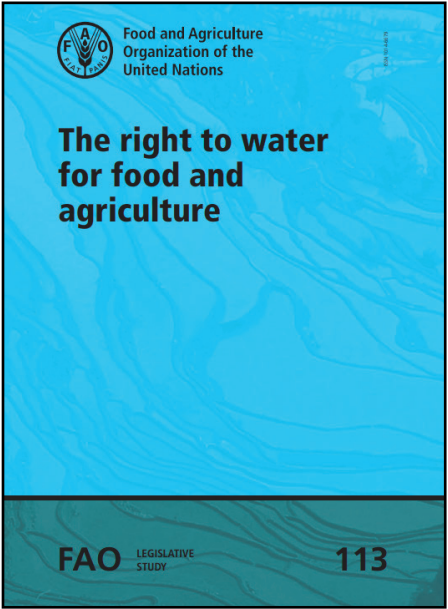

The Development Law Service has been thinking about how to legislate for and regulate the access to and use of freshwater resources for decades, reflecting evolving paradigms over time. This is a collection of all its publications related to water law, which we hope may be of complementary interest to the AQUALEX user.

For more information on **FAO legal publications** or comments, please contact: LEGN Chief at LEGN-Chief@fao.org.
